

I do not agree to changing NJ's Do Not Call law. I should be able to sit down to dinner in my own home without being intruded upon or interrupted by strangers. I pay for my phone service. It is not a public thoroughfare of any kind. When I need my phone to call out in an emergency, NO ONE should have the right to monopolize my phone line by playing tapes that I cannot hang up on, or that will be recorded on my answering machine.

I want the law to remain as it is.
